IN THE SHETLAND ISLES**

ABOUT

EMN Plant Ltd is an established plant hire business incorporated in 2007, and is one of Shetland's largest and leading businesses in their sector. Our main base is at Sella Ness in the Shetland North Mainland approximately two miles from the Sullom Voe Oil Terminal and we also have a yard in Lerwick.

OUR MAIN BUSINESS INTERESTS ARE:

Plant Hire
Haulage
Skip Hire & Waste Management
Quarrying & Ready Mixed Concrete
Civil Engineering Contract Works
Demolition & Decommissioning
Scrap Metal Recycling
Garage Services

The business was setup by the late Edmund M Nicolson and his three sons Christopher, Ellis and Martyn. Edmund was involved in plant hire in Shetland from 1972 and the following construction boom that followed with the Sullom Voe Oil Terminal being built and the huge upgrading of the Islands infrastructure. Today the company is managed by his sons together with a proficient management team and 35 staff in total employed.

Our main objective is to ensure complete customer satisfaction with the services we provide. To achieve this we ensure we provide a high quality and flexible can do service.

PLANT HIRE

We have a wide range of plant and equipment in our plant hire base which we are continually renewing and extending. To ensure that our own plant and vehicles are maintained to the highest standard we have our own commercial garage facility and dedicated heavy plant mechanics.

OUR MAIN PLANT ITEMS ARE:

Access Lifts

Wheeled, Tracked and LGP Tracked

Attachments

Rock breakers (to suit all our excavators), kerb lifter, plate compactor, sweeper, planer, tractor mounted sweeper, grapple, sorting grabs, lifting extension arms, peat turf cutting buckets, metal cutting shears, scrap grab

Bowers

Water and diesel - up to 6000 litre

Compressors

100 to 900 CFM

Containers

10', 20' & 40'

Dump Trucks

12 & 25 ton

Excavators

0.75 to 30 ton

Low Ground Pressure Excavators

Wheeled Excavators

Forklifts

1.5 to 4 ton

Lighting Towers

Ride on Rollers

Telehandlers

Tractors

Including slurry tankers, flat bed trailers, low loaders and dumper trailers

Trailers

Assorted plant trailers, box trailer, flatbed trailer

Tracked Dumpers

1.5 to 6 ton

Wheeled Site Dumpers

1 to 9 ton

Small Plant & Tool Hire

Plate compactor, trench rammer, floor saw, cut off saw, concrete pokers & screeds, surveying instruments, generators, breakers & drills, traffic lights etc.

Site Welfare Cabins

Wheeled Loading Shovels

Crushing and Screening Plant

Scrap Material Handler

Including but not limited to the items above.

We welcome all enquiries from clients for long and short term durations.

ROCK QUARRYING

Our Scatsta Quarry is a hard rock Granodiorite quarry where we produce the following aggregates and sub-bases:

Scalpings	20mm Clean Chips	4" Clean Stone (6C)
Type 1	40mm Clean Chips	4" Crusher Run (6F2)
10mm All In	20-5mm Concrete Aggregate	As Dug Hardcore
20mm All In	4mm Washed Sand	Armour Stone
10mm Clean Chips	2mm Washed Sand	Dust

Specific products also produced for clients specification.

READY MIX CONCRETE

Our ready mix concrete batching plant is located within our quarry and is fully BSI kitemark accredited which ensures quality and consistency of our ready mix products.

We have a wide range of tested concrete mix designs and can also design bespoke mixes to meet client requirements.

RECYCLING

Recycled aggregates that we offer include:

Recycled Crusher Run (6F2)

Recycled 4" Clean (6C)

To enable us to provide recycled materials we can accept the following materials:

Concrete & Bitmac

Suitable spoil / gravel

We have a SEPA licensed land improvement site, for inert and non-hazardous waste only, and we are able to accept:

Unsuitable spoil

Clay

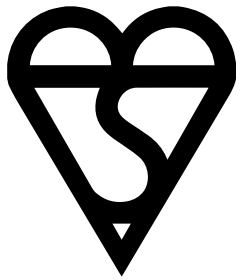

Silt

Soil

Peat

To ensure we are self sufficient we have invested in our own state of the art mobile crushing and screening plant which can also be used onsite.

Ready-Mixed Concrete

HAULAGE & SKIP HIRE

Our versatile and varied haulage fleet allows us to offer a range of options. Vehicles within our fleet include:

Heavy Haulage Artic tractor unit up to 80 ton GVW with
4 axle low loader
44 ton step frame
Tipper trailer
Cement & Scrap Bulkers

8 Wheel crane trucks 53, 40 & 36 ton /m cranes and up to 23m reach

8 Wheel tipper & concrete mixer trucks

18 & 26 ton skip trucks
with assorted sizes of skips

32 ton Hook truck with various bodies:
Flat
Tipper
40 yd³ Bins

GARAGE SERVICES

From our base at Sella Ness we have a commercial garage facility where we are fully equipped to carry out the following works on plant and commercial vehicles:

General Maintenance
Servicing
Repairs
Welding and Fabrication
Pre MOT Inspection
Preparation works
Monthly Inspections
Hydraulic Hose Repair
PAT Testing
Scania Diagnostics
Tyre supply & fitting

Our mechanics are fully qualified and experienced for all types of repairs and maintenance. For remote repairs and maintenance we have a dedicated van that is equipped with a large range of tools and equipment. We keep a large stock of parts, filters, oils and consumables to ensure we can provide an efficient service with a quick turnaround for our customers.

PLANT MAINTENANCE & REPAIR

CIVIL & GROUNDWORK CONTRACTORS

In conjunction with our plant hire, quarry and haulage services, we offer civil engineering contract works such as:

Site surveying and setting out with Trimble GPS & S6 robotic total station

Utilities and drainage installation

Road construction

Concrete works

Bulk earthworks

Demolition

Ground works packages

DEMOLITION & DECOMMISSIONING

We have invested heavily in plant, equipment and training to offer a comprehensive demolition and decommissioning service in Shetland. Our staff are trained to CCDO standard accredited by the National Demolition Training Group as well as being trained to removed non-licensed asbestos. With our own skip and hook bin service we can provide a complete demolition and waste management service that maximizes the amount of material recycled.

With our extensive experience of working in the Oil & Gas environments and collaboration with other specialist service providers we can provide a comprehensive decommissioning and demolition project managed service.

SCRAP METAL RECYCLING

At our Scatsta Quarry we have a fully licensed concrete pad which is used for ferrous and non-ferrous scrap metal recycling service. We can provide a full collection service or clients can deliver to the site.
