

Construction Plant Operator – Modern Apprenticeship

This is a brilliant opportunity to gain a vocational qualification and on the job experience, all while getting a wage!

EMN Plant Ltd provide various services including plant hire, civil engineering and quarry operators.

1. **What you'll learn:**

- Safe operation of plant machinery, such as 360° excavator, forward tipping dumper, articulated dumper, ride-on roller and telescopic handler.
- Maintenance of plant machinery.
- Health, safety and welfare.
- Risk assessments and method statements.
- Interpreting information.
- Effective communication.

2. **About the job:**

Being a plant operator often involves working in rural areas, such as on the Viking windfarm project. Candidates must have a good level of physical fitness as the job can involve quite strenuous activity. Hours are usually 07:30 to 17:00 Monday to Friday with regular opportunities for overtime for over 18 year olds.
